## Summary

An aspiring and enthusiastic Full-Stack web developer who is seeking opportunities to learn and grow. Always ready for challenges and willing to use their skills to their fullest potential to create value and help the organization succeed.

## Work Experience

### InspironLabs

Software Engineer

Bengaluru, India

Feb 2022 - Present

- Led comprehensive **training sessions for the Java** backend team, equipping them with expertise in **React.js and Node.js**. Leveraged mentorship capabilities to guide the team seamlessly into **project deployment**.
- Worked on a product that is aimed at offering **top-notch SEO** services to websites from writing content to comparing the content with their **top five competitors**.
- Working on **USA's largest Health Care** product(UHC)

### Snapdeal

Software Engineer

Gurugram, India

May 2022 - Feb 2023

- Achieved an impressive quarterly expense **reduction of 11 lakhs**, bolstering organizational **profitability** through strategic cost-cutting measures.
- **Optimized user experience** by automating the chat panel process, delivering efficiency gains and reducing user **effort by ~4 seconds**, showcasing a commitment to seamless interactions.
- Implemented a modification to the **chat assignment logic** for agents, allowing administrators to set a cap on the number of chats that can be assigned to an agent at one time. If the cap is reached, incoming chats will be **placed in a queue** and users will be notified with predefined messages, based on the time of waiting, configured by the administrator, until their concern is handled by an available agent.
- Implemented the feature for administrators to **set reminder messages and corresponding time intervals**. If the user does not respond before the first reminder message is triggered, the messages will continue to be sent at the configured intervals. If the user still does not respond after the last reminder message, the chat will be automatically resolved.

### Masai School

Full Stack Developer Trainee

Bengaluru, India

July 2021 - Apr 2022

- Worked on diverse team projects as **full stack developer**, clinched 2nd place in a **prestigious hackathon**. Mastered 600+ hours of DSA coding, **ranked in the top 1 percent**.
