EXPERIENCE

Software Engineer 2 Aug 2025 – Present
Nike, Bengaluru, KA

- **Built mass-BOM edit capability saving 4,000 hours annually** by enabling bulk operations on 1,000+ BOMs, eliminating bottlenecks in sustainability, compliance, and cost initiatives.
- **Designed governed workflow handling 60,000 BOMs with no lag** using virtualization, incremental rendering, preview transparency, and post-run reporting for FW Development Integration team.
- **Architected async pipeline using S3 presigned URLs and background processing (EKS, ECS, Lambda)** with queuing, real-time status, and safe retry/rollback paths.

Software Engineer Feb 2023 – Aug 2025
InspironLabs, Bengaluru, KA

- **Delivered WCAG-compliant solutions for Honeywell and Optum, reducing bundle size 44% (320KB to 180KB)** using SSR, code splitting, dynamic imports while transforming Figma designs into responsive code.
- **Accelerated build time 80% (30 to 6 minutes)** through workflow optimization, enabling faster release cycles.
- **Led team of four developers**, providing technical guidance, organizing stand-ups, sprint planning, and retrospectives.

Software Engineer May 2022 – Feb 2023
Snapdeal, Gurugram, HR

- **Achieved 20% cost reduction (11 lakh quarterly savings)** migrating real-time chat from proprietary to open-source with zero data loss.
- **Boosted efficiency 40% via admin metrics dashboard** monitoring KPIs with time range filters.
- **Implemented chat queue system increasing customer satisfaction 25%** and reducing agent burnout 20%.
